

What will the flowers for the 2014 Trends Forecast become?

Bill Schaffer and Kris Kratt just finished working with David & Leanne Kesler at the Floral Design Institute to create the designs for IFD's Flower Trends Forecast 2014. Leanne snapped off a few pictures of some of the flowers used by Bill and Kris to create the 2014 trend analysis. Roses, zinnia, hydrangea, allium, thistle.... Ohhhh what will it become???
